

Alaskan Trawler 65' Concept

This classic cruiser-styled Trawler features:

- Performance figures 14-18 knots economy cruise and 20-25 knots top end.
- Amenities will exceed the ones listed on our site because most of the clients interested in this size, want a lot of toys on board.

It's a beautiful home on the water at 50'-65' long. It's your waterfront cabin you can take to the San Juan Islands or up the inside passage to Alaska.

It's a coastal cruiser, which can run on lakes, in bays and inland waterways. It's about half the price of a production motoryacht. It's your custom, Trawler-style *Coastal Cruiser* with many amenities offered as standard features!!!

The clients themselves design color schemes and interior layouts. These cats are cruise ready with all the amenities listed and more.
