New Profile Jaguar 58

On the drawing board...

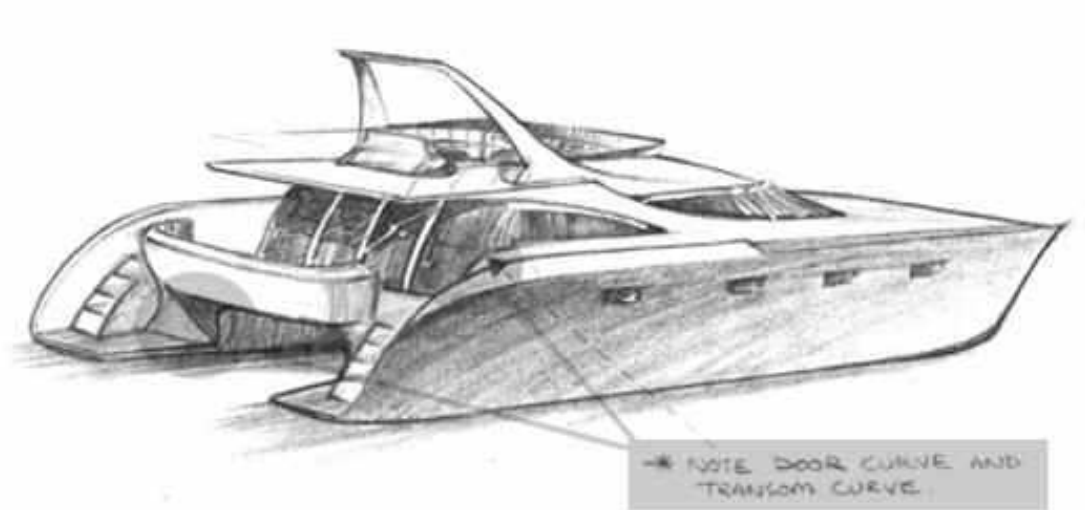

The client has requested a sleek look to his Sportfisher and is working with our stylist to get the exact look he is after.

A design in progress...

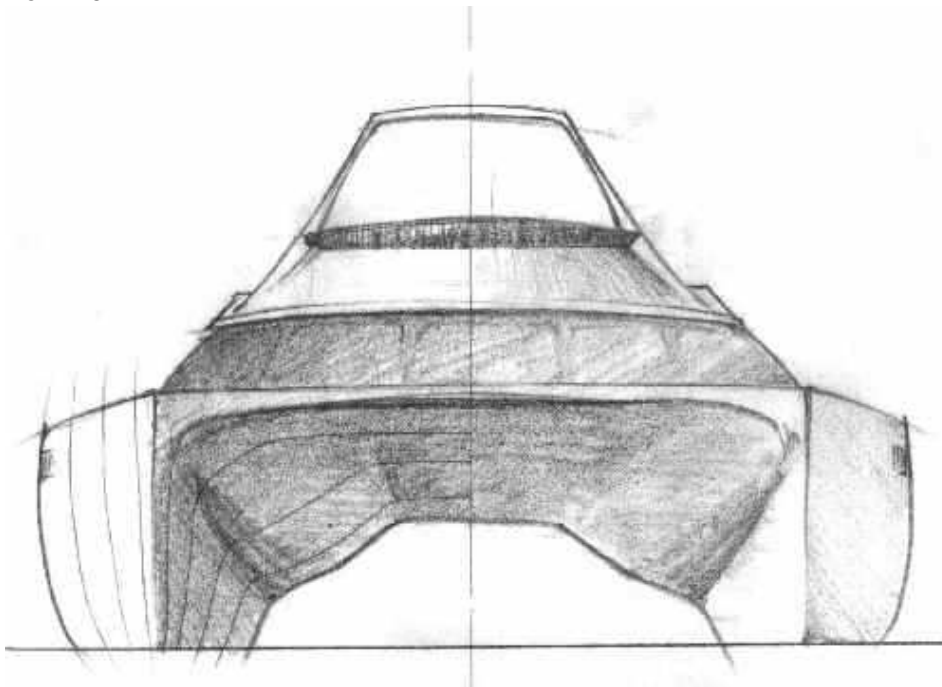

Jaguar 58'

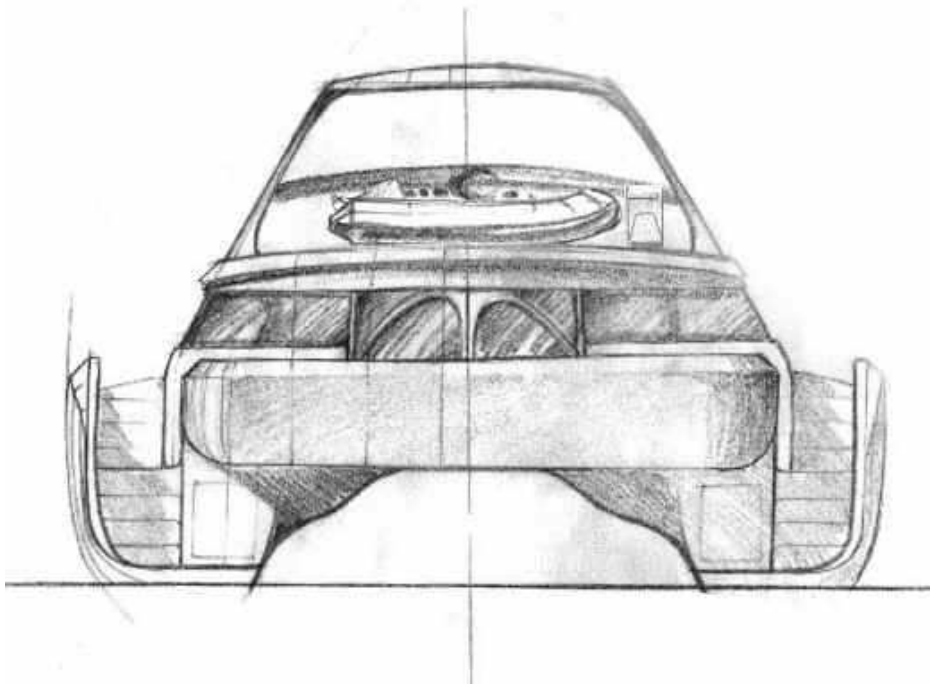

This cat will be powered by twin Diesels to give her an average economy speed of 18 knots and a top speed of 25 knots. Floor plans will follow shortly, 4 staterooms will be added.

Aft View

Flybridge

A hand-drawn architectural sketch of a building layout. The drawing is oriented vertically on the page. On the left side, there is a curved structure with a central circular area and several rectangular blocks along its outer edge. Below this structure, the text "NO PROGRESS" is written with an arrow pointing to the left. The central part of the drawing shows a large rectangular area with a grid pattern, possibly representing a courtyard or a large room. To the right of this grid area is a large, irregularly shaped area with a curved boundary, containing several small rectangular blocks and a larger, more complex structure. The drawing is done in a simple, sketchy style with black lines on a white background.
