

Pedigree Cats Inc.

Welcome to Pedigree Cat Catamarans, Inc.

Mission Statement

Pedigree Catamarans will strive to be the best builder of custom, luxurious multihulls in the world; to build power catamarans, sail catamarans and trimarans utilizing foam core with modern materials and procedures of composite construction. We will continue to stay abreast of new technologies to ensure the most successful experience of yacht and owner.

Offerings

Pedigree Catamarans, Inc. or Pedigree Cats, offer more than 30 different catamaran models ranging from 46' to 150' and we offer top designers for our customers to work with in designing their ultimate catamaran.

Materials

The catamaran hulls are constructed using Airex foam core, E-glass, Kevlar, carbon fiber, vinylester or epoxy resins as the designer specifies. Generally the foam used above the waterline is a PVC cross linked foam. The custom exterior is Imron® polyurethane.

Credit References

Pedigree Catamarans Inc. has a fantastic credit ratings with all of their suppliers, which in the marine industry is a rarity. Make sure you check out your builder thoroughly, especially their credit history since this is a good indicator of their business dealings.
